From Thursday December 22. to Monday December 26. 1681.

Genoua, Decemb. 17.

THe 12th Inſtant arrived here the *Antilope* Frigat, Capt. *Story* Commander from *Leghorne*, and in her Company the *Conſtantinople* Merchant, and a Pink, both bound for *England*. The Thirteenth came in here the *Katherine*, Capt. *Iriſt*, from *Barcelona*.

Vienna, Dec. 12. From *Oedenburg* we have an Account, that the Empreſs was Crowned there the 9th Inſtant, which had been performed with great State and Magnificence, the particulars whereof there is not room to ſet down here. In few days their Imperial Majeſties will be at *Neuſtadt*, and we expect them here before *Chriſtmas*. The Emperor having granted Count *Teckeley* a Ceſſation of Arms, and Aſſigned him Quarters for his Troops, the Imperial Troops have likewiſe Orders to go into their Winter Quarters, and Count *Caprara*, their General, is on his way hither. We are told, that the Emperor, in order to the reſtoring a perfect Peace and Tranquility to the Kingdom of *Hungary*, has not only promiſed Count *Teckeley*, and thoſe now in Arms with him a general Pardon, but has cauſed new Propoſals to be made to him, ſuch as it is hoped will diſpoſe him to an entire ſubmiſſion to his Imperial Majeſty, eſpecially at this time that his Party is ſo much weakened, as well through the ill ſucceſs of the late Expedition of the *Tranſylvanians*, as through the good concluſion of the Dyet at *Oedenburg*. In the mean time the Affairs of *Germany* are not neglected; and frequent Councils are held to reſolve of the meaſures that are neceſſary to be taken for the Defence and Security of the Empire; And we are aſſured that for that purpoſe Levies are going to be made, and that the Emperor intends to have a very good Army in the Field the next Spring.

Ratiſbonne, Dec. 15. The Preſident of the Imperial Chamber at *Spire* has written to the States Aſſembled here, to acquaint them, that it will be very inconvenient to remove any of their Records, or other Papers, as long as the Chamber continues there; for that in the Proceſſes that come before them, they have frequent occaſions to have recourſe to thoſe Records and Writings, and therefore prays them to think of ſome other way for the ſecurity of the ſaid Chamber; upon which it has been propoſed, to remove it to *Francfort*, or to ſome other of the Imperial Cities. The Points concerning the ſecurity of the Empire, are at preſent the chief Subject of the Debates of the Dyet; and we hope they will in a ſhort time come to ſuch Reſolutions upon them, as may anſwer the ends they aim at.

Cologne, Dec. 20. The Deputies of the City of *Liege* are ſtill here, but advance very little in their Negotiation, which they are the more concerned at, becauſe of the Advices they receive from home, that the French have formed pretenſions which very much concern the City of *Liege*: and yeſterday the Letters from thence brought an Account, that they had ſummoned the whole Countrey of *Condros* to do Homage to the French King. Our Elector has, it's ſaid, reſolved to fortifie *Rhinberg*. From *Ratiſbonne* they write, that the Circles of *Bavaria*, *Saxony*, and *Franconia*, had reſolved to furniſh their proportions of 60000 Men, and that forthwith, for a good Example to others, that ſo an Army may be brought on foot againſt Spring, to be employed for their common Security and Protection.

Berlin, Dec. 21. Three days ſince our Elector came hither from *Poſtdam*, with intention to paſs the Holidays in this place; the Elector of *Saxony* and the Duke of *Hanover* are both expected here, and preparations are making to receive them. It's believed that when they are together, they will enter into Engagements for the maintaining the Peace of *Germany*: And in the interim, the Imperial and Dutch Miniſters at this Court are frequently with his Electoral Highneſs and his Miniſters, to make to them the neceſſary Repreſentation upon the preſent ſtate of Affairs.

Hamburg, Decemb. 23. Friday laſt the Duke and Ducheſs of *Zell* came hither *incognito*, and intend to paſs ſome ſhort time here. Two Engliſh Merchant Ships bound hither from *London*, have been caſt away upon the coaſt of *Jutland*. The Plague is wholly abated at *Magdeburg* and *Halberſtadt*.

Bruſſels, Decemb. 19. The motions of the French Troops do again very much allarm us; thoſe that Aſſembled at *Querain*, within three Leagues of *Mons* are marched towards *Dinant*; and thoſe that were diſperſed in *Luxemburg*, are fallen into the Countrey of *Limburg*, and have plundered ſeveral Villages. The Sieur *Chriſtin* is come back from *Courtray*, and has brought with him the Anſwer of the French Commiſſioners, to the Reply of the Spaniſh, concerning the French Kings Pretenſions upon *Aloſt*. From *Liege* they write, that the French have included the Suburbs of that City in their pretenſions of Dependencies, And that they have every day more and more reaſon to ſuſpect that the French have a deſign, as well upon that City as upon *Cologne*.

Bruſſels, Dec. 23. His Highneſs the Prince of *Parma* has taken a ſuddain Reſolution to go for *Flanders*, to ſettle the Minds of thoſe People, who are very much

disturbed by the continual apprehensions they have of the French. Besides, the States of that Province have Declared, that in the Circumstances the Countrey is at present under, they cannot pay the Subsidies they sometimes since agreed to. The Prince of *Parma* has sent the Sieur *du Val* to the French Court, to complain of the late Hostilities of the French Troops: and the Sieur *Fariau* is gone for *Mons*, to Command there in the interim. The French have in a manner summoned the whole Countrey of *Liege*, to do Homage to the French King.

Brusse s, Decemb. 26. On Wednesday the Prince of *Parma* parted from hence for *Ghent*, , where his Highness has ordered all the General-Officers to meet him, and accordingly they are gone thither this Morning. The Horse-Guards and the two Regiments of Dragoons that were in Garrison here, are likewise marched thither, which makes us believe there is some design in hand. We have Advice that the Magistrates of *Verviers* have done Homage to the French King, and that greatest part of the Countrey of *Liege*, as well as of the Province of *Limburg*, has been summoned to do the like. Our Letters from *Vienna* give us great hopes of an Accommodation between the Emperor and the Rebels of *Hungary*, there being not only a Truce concluded, but Count *Teckeley* having refused the Winter-Quarters, which the Turks had offered him, as formerly, and having accepted those assigned him by the Emperor.

Brussels, Dec. 30. The Prince of *Parma* continues still in *Flanders*, having visited *Audenard*, and other Places of that Province, from whence the two Regiments of Dragoons that followed his Highness, are returned hither, there being no appearance of the French their attempting any thing farther upon *Flanders* at this time, because of the great Rains that have lately fallen, and made the ways impassable. The Heer *de Starenberg*, Ambassador from the States-General of the *United-Provinces* to the most Christian King, arrived here this Afternoon in his way to *Paris*. From *Liege* they write, that they have now hardly any prospect of accommodating Matters with their Prince. We have great Complaints of the disorders which the French commit in the Provinces of *Limburg* and of *Namur*.

Hague, Dec. 26. Two days since parted from hence the Heer *Van Starenberg*, Ambassador from this State to the French King.

This State has resolved to increase their standing Forces, and for that purpose 20 Men will be added to every Troop of Horse, and 16 to every Company of Foot. Our Letters from *Brussels* of the 24th Instant tell us, that the Prince of *Parma* was gone for *Flanders*, to propose several Matters to the States of that Province, and to change the Magistrates of *Ghent* and *Bruges*. The Letters add, that the Countrey People in *Flanders* live in great fear of the French.

Paris, Dec. 31. We have Advice that the French Troops are entred into the Countrey of *Eyffelt*, and that they have Orders to continue there, till the Inhabitants thereof have done Homage to our King; and that for the same purpose several Troops are marched into the Countrey of *Condros*, part of the Bishoprick of *Liege*. The City of *Luxemburg* continues to be very closely blocked up.

Deal, December 24. This Morning all the Merchants Ships in the *Downs*, being about 200 Sail, Sailed, except two Ships, Commanded by Capt. *Heath* and Capt. *Wiltshire*, bound for the *East-Indies*: they have a very bare Wind.

Whitehal, Dec. 24. From *Scotland* we have an Account, that the Earl of *Argile* (who we told you in our last, was upon his Tryal found Guilty of High-Treason) had in a Disguise, made his escape out of the Castle of *Edenburg*, where he was a Prisoner.
